

TAMERLAN MAMMADOV

CYBERSECURITY & IT SUPPORT | SYSTEMS ADMINISTRATION | WEB DEVELOPMENT

St. Louis, MO | [Handshake](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Cybersecurity graduate student with a B.S. in Computer Engineering and hands-on experience across systems administration, networking, web development, and penetration testing. Experienced with Linux/Kali Linux, Burp Suite, SQL/Oracle, troubleshooting, database modeling, and production website maintenance. Seeking IT Service Desk, Junior Systems Administrator, Cybersecurity Intern, or entry-level security opportunities where technical problem-solving and security fundamentals can create immediate value.

TECHNICAL SKILLS

Cybersecurity: Penetration Testing, Vulnerability Assessment, Web Security, Network Security, CTF Labs, Burp Suite, Kali Linux
Systems & Networking: Linux Administration, Windows, TCP/IP, DNS, DHCP, Subnetting, VLSM, System Troubleshooting, Network Configuration
Web & Databases: HTML, CSS, JavaScript, Front-End/Back-End Development, SQL, Oracle APEX, Database Design & Modeling
Tools & Platforms: Linux, Kali Linux, Burp Suite, Oracle APEX, TryHackMe

PROFESSIONAL EXPERIENCE

System Administrator & Web Developer | International Chovken Federation

Baku, Azerbaijan

- Managed website infrastructure and day-to-day technical operations, supporting reliable access and ongoing site updates.
- Built and maintained the federation website (icfed.org), including front-end and back-end functionality and user-facing registration workflows.
- Troubleshoot website and system issues and coordinated technical updates to keep organizational web services functional.

Web Developer / Freelance Web Projects | OAWO & Independent Clients

Azerbaijan

- Developed and maintained business websites for multiple organizations, including BBG Energy, Urtas Industry, Eltra, Proteam Temizlik, Naftalan Central, and Vent.az.
- Translated client requirements into responsive web interfaces and implemented front-end and back-end features for production websites.
- Handled website updates, content changes, troubleshooting, and deployment-related tasks across multiple projects.

EDUCATION

Master of Science in Cybersecurity, Emphasis in Artificial Intelligence | Webster University

St. Louis, MO | 2026 – Present

Bachelor of Science in Computer Engineering | Khazar University

Baku, Azerbaijan | 2022 – 2026

CYBERSECURITY, NETWORKING & DATABASE PROJECTS

- Cybersecurity Labs: Completed hands-on TryHackMe CTFs and security labs using Kali Linux and Burp Suite, practicing enumeration, web security testing, and vulnerability assessment.
- Enterprise Networking Lab: Designed and configured an enterprise-style network using IP addressing, subnetting, and VLSM to meet real-world networking requirements.
- Oracle Database Modeling: Created conceptual/logical database models and implemented sample database workflows using Oracle APEX and SQL.

TRAINING & CERTIFICATES

- CompTIA PenTest+ (PT0-002) — Packt, 2025
- CompTIA Linux+ (XK0-005) — Packt, 2025
- Advanced Penetration Techniques — Packt, 2025
- Advanced Linux Networking and Security — Packt, 2025
- System Administration — Coders | Penetration Testing — Developia
